

The Art and Science of Contrology™ Pilates Instructor Training (ASCPIT) in Headquarters (The United States)

Full Instructor Training (Mat and Apparatus)

The Art and Science of Contrology Pilates Instructor Training (ASCPIT) offers a comprehensive Instructor Training following the training of Joseph H. Pilates and his system of body conditioning known as the Art of Contrology. The extensive curriculum of exercise and functional movement is taught in the classical style and technique developed by Pilates and his wife, Clara, as well as his successor, Romana Kryzanowska. This includes work on Joseph Pilates' original studio equipment and Mat exercises. Graduation from ASCPIT prepares you to lead group Mat classes or work one-on-one with a client, feeling confident with the many pieces of studio equipment Joseph Pilates invented, and your ability to construct a proper routine fitting your clients' needs.

Structure of the Instructor Training Program

1. Prerequisites and Application

The student must:

- 1) have completed 30 private/semiprivate hours of Pilates instruction before start of program (25 minimum to apply). Logged hours submitted on Prerequisite Log Sheet. If Mat Certified through ASCPIT, prerequisite is already fulfilled;
- 2) attend a private evaluation session with an ASCPIT representative;
- 3) be able to demonstrate proficiency in Mat and Reformer workouts, as well as familiarity with exercises on the Cadillac, Chairs, and Barrels;
- 4) submit the following paperwork:

a. signed application	b. medical release	c. apprentice agreement
d. referral letter from a studio, teacher, or employer	e. non-compete form	f. make payment of applicable tuition fees

2. Training

The ASCPIT is divided into three levels of training, each one covering both a Mat module and an Apparatus module. All the modules are distinct yet interconnected, building on the foundation of Joseph Pilates' teachings and exercise system. Attendance and participation in each module is required, as the full repertoire of movement is addressed in a sequential fashion. This includes modification, progression, and proper instruction technique.

3. Practicum

Apprentices must complete a total of 650 Apprentice hours of coursework, including observation, teaching, personal practice, and meetings. The program must be finished within 18 months of the start date (it is possible to finish within a year). Extensions are available; they are granted on a case-

by-case basis. An extension request must first be submitted in writing to be considered. The 650 hours will be divided among the three training levels. All hours must be completed at the AOC, except 75 hours, which may be done at an affiliated studio (these hours should not be confused with the prerequisite hours).

650-hour breakdown is as follows:

First 200 hours

Observation in-person & online	Observation Pilatesology	Practicing private session	Practicing - classes beginner Mat	Teaching	Total

Module II	Intermediate	Intermediate

Module Level	Mat	Apparatus
Module III	Advanced	Advanced

Note: A separate Mat Certification is awarded after the participant has completed all requirements of the Mat training modules. This allows the participant to begin teaching Mat Pilates before the Full Certification is achieved.

5. Anatomy and Physiology for Pilates (On-Line Distance-Learning Course)

Dates: Can be taken any time during the Certification Program

Required text: *Kinesiology: The Skeletal System and Muscle Function, 3rd Edition* by Joseph E. Muscolino.

Prerequisites: None (this course can be taken any time during the Certification Program).

Course Description

This course is a self-paced distance-learning course in which you read and study the content and show proficiency by passing a written exam taken on-line.

Learn the basic anatomy and physiology (kinesiology) of the musculoskeletal system by studying the bones, joints, and major muscles of the body, as well as how the nervous system coordinates muscle function. Study postural concepts used to describe body position, as well as concepts of dynamic movement patterns to understand how the body moves spatially. By learning and understanding fundamental kinesiology, you can begin to critically understand, discuss, and teach the strengthening and stretching exercises of the Pilates Method of body conditioning.

This course ends with an exam:

The exam is written and taken on-line. It takes approximately 30-60 minutes to complete.

6. Pilates Exams

Each Mat Level Module practicum/oral exam takes approximately 45 minutes; the written exam takes approximately 30 minutes.

Apparatus practical and written testing is scheduled by appointment after attending each training level of the Apparatus Module and completing the required log hours.

An Apprentice must first pass the Module's written exam before taking the Practical.

Module Level	Written exam	Practical exam
Module I	1 hour, cost \$100	1.5 hours, cost \$195
Module II	1 hour, cost \$100	1.5 hours, cost \$195
